The Law Regulating Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid; the subscribers are responsible for all the numbers sent.
3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers discontinued.
4. The Courts have decided that a refusal to take a newspaper or periodical from the Post Office without notifying the publisher, and the payment of all arrearages, is prima facie evidence of fraud.
5. Subscribers to newspapers or periodicals removing, are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription, unless notice is sent of such removal to the publication office.

American & Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington, (under the Act of 1837.)
76 State Street, opposite Kilby Street,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is *more successful at the Patent Office* than the subscriber; and as *success is the best proof of advantages and ability*, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on twice rejected applications *SIXTEEN APPEALS, EVERY ONE* of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

☞ The Largest
ESTABLISHMENT
—OF THE KIND—
IN THE STATE!
No. 20
Main Street, - - - - Bangor,

I SAY IT, not boastingly *but it is a fact*, and any one who will take the trouble to visit my establishment will be *convinced* of the truth of the statement.

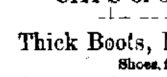

Boots and Shoes.
My assortment of Boots and Shoes cannot be surpassed by any store in the State. I have constantly on hand, and am manufacturing, all the varieties of *Ladies, Misses and Children's SHOES and GAITERS*, also, *Men's Work* of every description. All work manufactured in my own establishment is made on the

Plumer Patent Anatomical Last,
the principle of which is well known. I have manufactured for the last twelve months on the "Patent Last," and am convinced that a vast deal of human suffering might readily be saved by those who have corns and bunions and conferring advantages which can be most sincerely appreciated by those who suffer from tender feet.

To Officers and Soldiers!
Every Officer and Soldier should have his Boots or Shoes made on the "Plumer Patent Last." A soldier can travel farther in a day, and with less fatigue; the natural arches of the foot are properly supported, and their development is favored, so as to produce a firm and elastic tread. Try them, and you will be convinced.

FURS, &c.
LADIES, now is your time. I have on hand the *Best Assortment* of Fur Goods ever offered in this city, viz:
Cloaks, Capes, half Capes quarter Capes, Victorines, Collars, Muffs, Cuffs, &c., &c., all manufactured in the best styles, and the workmanship is not to be surpassed. I can show you the
Royal Ermine,
Hudson's Bay Sable Fitch,
American Sable, Russia Squirrel,
Mink Sable, Stone Martin,
and a great variety of the more common qualities.
OLD FURS made over enlarged and repaired, in the best style.

A GREAT VARIETY OF
Sleigh & Carriage Robes.

ELECTRICITY!
DRS. DEMING BROTHERS
WOULD most respectfully announce to the citizens of Bangor and vicinity, that they have taken a suit of Rooms at
2 1-2 STRICKLAND'S BLOCK,
on Kenduskeag Bridge; where we shall remain through the winter, to treat CHRONIC by the
Electropathic Treatment.
We would especially invite the afflicted, that are laboring under any old and inveterate Chronic Diseases, in the form of Scrofula, Hip Disease, White Swelling, Erysipelas, Salt Rheum, Tetter, Rash, and every Humor of whatever kind and character; Likewise, Spinal Diseases, Curvatures, St Vitus' Dance, Fits, Paralysis, Contracted Muscles, Distorted Limbs Dyspepsia, Liver Complaint, General Debility, Habitual Constipation, &c. We would likewise call the attention of the public to our peculiar and successful manner of curing
Consumption,
in every instance, when in the acute stages, or when the lungs are not fully involved.
The most obstinate cases of nervous or sick Headache, Neuralgia in the head, face and extremities, with acute and chronic Rheumatism, are instantly relieved and permanently cured in a few applications.
☞ To the ladies Drs. D. most especially call, who are sufferers with Dropsy, Debility, Leuchorrœ, (or Whites,) Inflammation and Falling of the Womb, Abscesses, Tumors and Cancers of the Womb, and will guarantee a permanent cure in every case.
For Suppressions, Irregularities, painful Menstruations, Neuralgia of the Womb, with all their entailing ills, there is no agent in the world, so efficient in curing as Electricity. In many cases, serious obstructions can be broken up in a few moments, and in every case it destroys the tendency to relapse.—To all those desiring PERFECT HEALTH and the services of the oldest Medical Electricians in the United States, we most respectfully invite to call, tendering to all a positive assurance of a full recovery of health.
P. S.—Drs. D. first introduced electricity, for extracting teeth without pain.
To those having decayed teeth or stumps, or desiring their teeth out for re-setting, we extend a polite invitation. During the operation the patient experiences a pleasing, invigorating sensation.
N. B.—for extracting Minerals and Humors from the system we use electro-chemical Baths.
☞ Office hours from 8 to 12 A. M., 1 to 5 and 7 to 9 in the evening. Consultation Free.

CURE FOR PIN WORMS
NEW DISCOVERY
The Ascarides, or Pin Worms, the removal of which has ever baffled the skill of the most eminent Physicians, are entirely expelled from the human system by the use of DR. E. G. GOULD'S PIN WORM SYRUP. A sure cure warranted in every case. Relief afforded in 24 hours.
SYMPTOMS—Intense itching, biting and distress in the lower part of the rectum and about the seat, (often mistaken for the Piles,) disagreeable sensation in the epigastric region, or lower part of the bowels; restlessness, wakefulness, starting and screaming in the sleep; fainting, and not unfrequently spasms of fits.
This Syrup is purely of vegetable extract, mild and gentle in its action, and in all cases where Physic is required, especially for children. It has no equal. It will give tone to the stomach and bowels, assisting nature in her process to restore health.

Blackwood's Magazine,
AND THE
BRITISH REVIEWS!
Great Inducements to Subscribers!
PREMIUMS AND REDUCTIONS!!

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:
1.
The London Quarterly, (Conservative.)
2.
The Edinburgh Review, (Whig.)
3.
The North British Review, (Free-Church.)
4.
The Westminster Review, (Liberal.)
5.
Blackwood's Edinburgh Magazine, (Tory.)

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political interests of the time shall have passed away. It is to these periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well established literary, scientific and theological character we urge them upon the consideration of the reading public.
The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

POSTAGE.
The POSTAGE to any part of the United States will be but Twenty-four Cents a year for 'Blackwood,' and but Fourteen Cents a year for each of the Reviews.
At the above prices the Periodicals will be furnished
For 1862
AND, AS A
PREMIUM TO NEW SUBSCRIBERS,
The Nos. of the same Periodicals for 1860 will be furnished complete, *without additional charge.*
Unlike the more ephemeral Magazines of the day these Periodicals lose little by age. Hence, a full year of the Nos. for 1860, may be regarded nearly as valuable as for 1862.
Subscribers wishing also the Nos. for 1861, will be supplied at the following EXTREMELY LOW RATES!

Splendid Offers for 186 , '61, & 62. Together.

In Peace or War on land or sea,
Our flag, the ægis of the free,
Bright emblem of Columbia's glory!
Shall tell to coming years the story,
How, stout of heart, and strong of hand,
The patriots of our native land
Bore it, the nation's hope and life,
On tented field, 'mid fearful strife,
Still on! 'till through the sulphurous cloud
It broke in triumph, Treason's shroud!

While a party of visitors were on board of the British frigate Immortalite, a few days ago, a young officer told them that the guns were genuine "Hinglish Harmstrong guns," which would throw a ball to the distance of seven miles with precision An individual near by immediately took the Englishman a little aback by telling him that our largest gun was so large and of such power that a carriage large and strong enough could never be made for it, and that it would throw a ball as large as a hogshead forty miles The party were then quietly conducted around the ship, and no more braggadocia was heard

Concerning the 100 torpedoes which, according to accounts, are liberally scattered up and down the Mississippi river from Columbus to Memphis, the naval officers of the great expedition at Cairo express but little fear They say they have never yet proved of any practical utility, except in killing their inventors and people who are foolishly handling them They do not think that the fleet is to suffer any particular inconvenience from this source now

STONE BLOCKADE A historical correspondent of the *Hartford Courant* recalls the fact that the "guardians of civilation of mankind," in their war with Napoleon, set the following "strange" and "ineffectual" example

"England, * * unable to get opportunities of assailing French vessels, was induced to have recourse to strange and, as it proved, ineffectual means of carrying on hostilities Such was the attempt at destroying the harbor of Bologne by sinking in the roads ships loaded with stones "

—*Scott's Life of Napoleon Bonaparte*

William D Kingin was convicted in Michigan, last week, of a murder marked by very atrocious circumstances In accordance with the law of the State he was taken to State Prison, there to endure solitary confinement for life—From the time he enters his cell—a grave for the living man—he will never see a face again His meals are conveyed to him through an opening in his cell, and when it becomes necessary for human beings to approach him, they are hooded so as to conceal their features

General Sherman has been the subject of much complaint for alleged inactivity, and it has been reported that Commodore Dupont has censured it. The Boston *Advertiser* thus nails the fiction

"We happen to know that Captain Dupont, in a private letter dated December 0 expresses entire approval of General Sherman's management, and censures, on the other hand, the ill judged outcry raised against the latter It is the opinion of Captain Dupont that Charleston and Savannah must fall But he does not think that the army sent out under Sherman, and intended for another purpose—which has been fully accomplished—was sufficient to enable him, with prudence, to detach a sufficient force for the capture of either city He speaks with great satisfaction of what has been accomplished so far, and with confidence and resolution as to the future."

The following letter was sent by a man to his son at college: My dear son—I write to send you some new socks, which your mother has just knit by cutting down some of mine. Your mother sends you ten pounds without my knowledge, and for fear you will not spend it wisely, I have kept back half and send you only five Your mother and I are well, except that your sister has got the measles I hope you will do honor to my teachings; if you do not you are a donkey, and your mother and myself are your affectionate parents.

POWER OF A HORSE'S SCENT —There is one perception which a horse possesses, that but little attention has been paid to—it is the power of scent. With some horses it is as acute as with a dog; and for the benefit of those who have to drive nights, such as physicians and others, this knowledge is invaluable. I have never known it to fail, and I have ridden hundreds of miles dark nights and in consideration of this power of scent, this is my simple advice: never check your horse at night, but give him a free head, and you may rest assured that he will never get off the road, and will carry you expeditiously and safely. In regard to the power of scent in the horse, I once knew one of a pair that was [illegible] stolen, and recovered mainly by the track being [illegible] by his mate, and [illegible] he had been stolen six or eight month. [illegible]

A Hard Record.

Our readers remember the "Hon Joseph Howe" of Nova Scotia, who figured so largely in railroad matters a few years ago, and who ingratiated himself pretty strongly with the Yankees in consequence of his efforts to carry out the great projects then in hand for connecting the United States and the British Provinces by iron bands. He also stood forth at that time as a champion of liberal, almost *republican* principles, as a leading statesman of British America. A Halifax paper now shows him up as follows

LOOK ON THIS PICTURE.

Hon Joseph Howe's Speeches at Boston, July 4th, 1858

* * I have listened to the Declaration of Independence, as I always do, not without emotions similar to those with which I read our great Charter and bill of Rights, or any other eloquent protest against the injustice and barbarities of the past

"He did not know whether he (Mr Howe) was sufficiently a Democrat to interest those present, but for the last quarter of a century he had been fighting the battles of Democracy on the Northern side of our boundary Great Britain was striving to keep together her vast territory of forty Provinces shattered beneath every clime in the world and this he believed was what Democracy was striving to do for the thirty one States of the Union Americans would be madmen and fools when Providence had cast their lot on this continent, and had given them so many advantages if they did not endeavor to keep this country together Why if they did not the mother country would disown them — * * * I wish you success with all my heart You would be fools and madmen, called to this vocation if in possession of half a continent, with boundless resources, with a glorious history to reflect upon if, from any want of skill or statesmanship you failed to preserve this Union — England, Ireland and Scotland would despise you if you did British America, whose interests are involved in your success, would deeply regret the dissolution of this great confederacy

"I never come to Boston without feeling perfectly at Home, for I find friends everywhere, and relations not a few * * I told you that my father was a Boston boy

* * * Shall we fight to test our courage It has been tested from Boadicea to Bunker Hill We know how you can fight, for we have tested your courage, sometimes to our cost * * * Your grandfathers and mine fought and beat us *I have to thank God that you did* "

AND ON THAT

Hon Joseph Howe's Speeches near Manchester, Dec 1861

In America, England and her flag were in bad odor Every 4th of July, the day on which they declared their independence—they read the Bill of Indictment against the old country, called the Bill of Independence, which was full of the grievances of the period, and thousands were excited to believe that everything that was true of England a century ago, was true now

Now they (the inhabitants of British America) wished the South success with all their hearts and souls. * * From the bottom of his soul, supposing England held her hand, he did not believe the North could over run and conquer the South Supposing any two of them were to shoulder their muskets and march from the borders of Maine down to the end of Texas, he believed they would be dead before they got there, even if there was no enemy to fight. * * * Supposing however the Southern States were overrun, the Northerners would require what Sam Slick called a place as big as all out doors to keep the Southerners in Like the boy's noose that had been wiped over and over again but would not stay wiped they would have to thrash the Southerners over and over again but they would not stay thrashed * * For the good, therefore, of the Northern States, that they might hereafter be prosperous and powerful and useful to the world, the wisest thing they could have done when the Southern States declared their independence, would have been to have said go, and frame institutions for yourselves

"He (Mr Howe) was English on both sides of the house, and they might well imagine how their reception that night affected him"

"They read in the Northern papers that Southerners were a beggarly parcel of rascals with no pluck no courage, no patriotism—But notwithstanding this, every time they fought, the South licked them * * They had nothing to do from year's end to year's end but to ride about and shoot, and that was what they were doing now, (laughter,) the only difference being that instead of shooting squirrels, deer, and raccoons, they were shooting Yankees'" (Laughter and cheers)

The St Croix Herald believes that Mr Howe has grossly misrepresented the public sentiment of the British provinces The above extracts show what a humiliating and inconsistent position he now occupies We would advise him to make the most of his present lease of political power, for we believe that when the time arrives an indignant and outraged constituency will by an overwhelming verdict consign him to that oblivious retirement he so justly merits

LEVIATHAN WITH A HOOK IN HIS JAWS Whale fishing, with an anchor for a hook, and a ship for a float, must be rather an extensive kind of sport, yet it nevertheless seems to have been enjoyed in the Indian Ocean The following is an extract from a letter addressed by Mr J T Rerry, superintendent of the Manaar Ferry, to the Immigration Commissioners of Colombo, Ceylon, and published in the Overland Observer of Sept 30th

"I have the honor to inform you I left Devipatum on the 20th inst with the two schooners, having on board two hundred and forty coolies We arrived here (Talemanaar) on Saturday, the 24th inst, at four P M Having the wind directly against us on coming opposite to Ramisseram pagoda we anchored there at six o'clock, P M, intending to start during the night for Talemanaar, when the wind would change—About eight o'clock, P M, I was sitting in the small poop, when suddenly the bow of the vessel was pulled on the level of the sea, then came a slight shock, and a large shower of spray all over the vessel, after which we shot off at railway speed. I was very much alarmed at first by the shock and spray, thinking we might have drifted on some of the coral reefs. In about a minute a whale made his appearance forward a cable's length from the vessel, then for the first time I knew how matters were Very extraordinary indeed, the whale had swallowed our anchor, and was firmly hooked At the time the whale hooked himself we were in six fathoms, the evening was very calm, and the moon just appeared above the horizon. All the coolies were very much alarmed and indeed so were we all. I was going twice to cut away the anchor and cable, but having only another cable on board, I did not like to do so, as, if I lost, I should stop the vessel, as I would not risk her in this weather, depending on only one cable. I think the way the whale got entangled must have been when he was [illegible] not otherwise [illegible] how it occurred The whale got his head [illegible] o'clock, P M He then went off at full speed ahead, then stopped, and whirled the vessel round; then went on forward again, fully at fifteen miles an hour; again whirling us about, as pulling us right and left, and showing himself, and spouting every minute, and this continued until one o'clock A M From his size (he was some forty or fifty feet long,) I do not think he could have been a grampus. He took us N by N E. over fifty miles At one o'clock, A M, on Saturday morning the vessel stopped running, and the whale lifted his head out of the water about ten feet, and went off, leaving the anchor drifting to the vessel. He was hooked five hours, and was nearly dead when the anchor got loose We then turned the vessel, set sails, and stood in for Paumben light, which we made by daylight, and continued under sail until we arrived at Talmanaar

Eclectic Magazine

The Memphis Avalanche publishes a letter from East Tennessee, from which we make the following extract—

The rebellion here is only suppressed, it is not completely crushed The smouldering fires kindled by Brownlow, Johnson and Maynard, may burst forth at any time The moment the troops are withdrawn, the flames of revolution will be rekindled in every valley and on every mountain side—in the gorges of the Cumberland Mountains, in the secluded valleys, beside the bright and sparkling streams that come leaping down lofty crags and precipices, dwells the huntsman of East Tennessee He has never read a newspaper beside Brownlow's He has never heard a speech except from Johnson, Maynard, Taylor, Nelson or Brownlow He has been told by his newspaper to read nothing to listen to nothing but the productions of the Unionists It is to be regretted that there is no possible means of giving correct information to this people

A western writer suggests that the states of Wisconsin, Illinois, Indiana and Michigan unite in establishing an immense cannon foundry, with a view to lake defence

A correspondent of the Tribune writes that "at a point not far distant from Port Royal, not less than 300 slaves are under arms, organized and officered mainly by whites, and forming a part of the regular *rebel* force under command of the General of that Department"

THE CAVALRY REGIMENT AT AUGUSTA AND HOW THEY DO THINGS The following are extracts from the letter of a member of the cavalry regiment, giving information that will be of interest

"The regiment now consists of 1159 men (officers included) and 1175 horses The regiment is improving every day in drill, under the charge of our efficient and much respected Lieutenant Colonel Thomas Hight, in discipline as well as drill

It is not true as reported that our horses are sick, &c, for owing to the energy of our efficient Quartermaster, E M Patten, who has provided good stables for them, and also to our Veterinary Surgeon, Wm F Stone, who has been unceasing in his attentions to the horses—We have had but nineteen die since October 21 which I think is a very good record Our Quartermaster has been untiring in his efforts to provide for the comfort of the regiment as a whole since he has been with us and the whole regiment speak in the highest terms of praise of him Mayhap some of your readers may think the life of a cavalry soldier is all play, but I will show them they have the wrong impression of it At Camp Penobscot every day at 6 1/2 A M reveille 6 35 stable call, which gives the men five minutes to dress themselves and be in line—they march to the stable feed their horses and clean them until 7 45 when the roll call is sounded and they return to their quarters at 8 10 Breakfast Call, 8 30 Water Call when they repair to the stables, take their horses out in line and lead them to water, while this is going on at 8 35 we have guard mounting at 9 20 Saddles and Boots, when each man takes his saddle on his back and they march by companies to the stables while their horses and are ready at 9 30 ['to horse'] to mount They drill by companies and as a regiment until 11 20, when recal is sounded and they return to their stables, unsaddle their horses, and get ready for the Dinner Call at 12 M

Saddle and Boots again at 1 P M, "to horse" at 1 10 where they drill again until 2 40 and the recall brings them back to the stables at 3 Stable Call again, when they feed their horses as in the morning, at 5 "retreat call and they have their time to themselves until 8, when the Stable Call again sends them to the stables to feed their horses, 8 30 "Recall and Roll Call, when every man is required to be in his quarters at 9 taps, and every light in the encampment is put out, and the men retire. They are getting a little impatient to see more of the world, and if General Butler should come here as is expected, we shall probably be seen away very soon Hoping you will have the pleasure of seeing us in the streets of your city (Portland) before long, I remain, yours, truly

MASON AND SLIDELL Doubts are very generally expressed that the report of the safe arrival of the rebel commissioners at St Thomas, by the steamer Gladiator, are not to be relied on, and it is feared that the Rinaldo, of which no thing has been heard, has gone down with all on board

The Paducah correspondent of the Cincinnati Times thinks the rebels will have to evacuate Columbus or be entrapped, as the place can easily be invested by the force which has moved down from Cairo, Bird's Point, and Fort Holt, while the gunboat fleet can attack them from the river Their capture would be almost a matter of certainty

"A SIGN OF THE TIMES" We are informed that Governor Sprague of Rhode Island has received a telegram from the Secretary of War, asking how many men he could furnish at six days' notice, for thirty days, to be used to garrison the fortifications around Washington The Governor replied two thousand men and a battery He left on Friday night for Washington, and will return as soon as the troops are required —*Boston Journal*

Upwards of five hundred thousand pounds of Sea Island cotton have been shipped from South Carolina to the North since the landing of Dupont's expedition A much greater quantity has been gathered for Government account, and will be brought forward in time. Three cargoes have already been shipped from Port Royal

A MILITARY ROAD EASTWARD Mr Sewall of Oldtown has introduced an order into the House directing the Committee on Coast Defences to inquire into the expediency of opening a military road from Milford to Princeton The route proposed is over a very level section of country and the distance from Milford to the Grand Lake Stream is but forty two miles, and at that point communication by steamboat and railroad with Calais is reached This road would be of great importance in the event of complications with England We trust it may be opened and that the U S Government will soon be induced to grant adequate aid to a line of railroad which shall reach both the eastern boundary at Calais, and also extend through Aroostook County As a part of the military defence of our State it is scarcely less important than the fortification of our seaports and rivers

MISSING A correspondent of the Pioneer at Little Falls, writes that on the 26th of November last a young man named J G. Stone left the camp where he had been engaged with an elder brother in burning coal and although search and inquiry have been made, no clue to his whereabouts can be obtained

DEER ISLE A friend writes as follows Deer Isle has now furnished 51 men for the Union Army and others are still going On the 6th of May 1861 a town meeting was held, which authorized the Selectmen of the town to supply the families of those who had or should volunteer to the amount of $200 The ladies of this town have also made numerous donations to the soldiers, the last of which was more especially for the sick and wounded and was directed to the Sanitary Commission consisting of the following articles the receipt of which has been acknowledged, viz 6 quilts, 30 pillows, 1 blanket, 1 [illegible] 1 pairs knit woolen socks 21 [illegible] bandages, 2 [illegible]wels, 1 dressing gown 6 pillow cases 1 roll of cloth for bandages

A BRAVE OLD MAN'S ADVENTURES A correspondent of the Louisville Democrat writing from Campbellsville Kentucky, tells the following story of Andrew Jackson Garmon a private in [illegible] Haggard's Cavalry regiment stationed at Columbia, Kentucky Garmon is a rough mountain character, and previous to enlistment was a terror to the secessionists in Cumberland and the adjoining counties—

Some ten or fifteen days since Squire Garmon learned that his family were all down sick with measles and determined to visit them cost what it might So he obtained a furlough from his gallant Colonel under protest that he (Garmon) would never return to his regiment

The first or second night after his arrival at home, the secesh, his old neighbors and relatives, twenty eight strong armed cap a pie, visited his house and rapped at the door The Squire hailed them, no answer He sprang out of bed, gathered his irons and lighted a candle, when he discovered three men in his dining room, and fired at them They all scampered out of the house, one falling dead at the door

The captain then ordered him to come out which he refused to do, and in turn invited them to come in and exchange bullets there This they declined to do, and immediately opened fire on his house through the doors and windows, the Squire returning the fire as fast as he could This was kept up, the Squire thinks about one hour, when his assailants fled, leaving three dead in the yard, and carrying off five mortally wounded (since dead)

The Squire then lighted up the house, and his sick family came out from their hiding places Not a whole pane of glass remained in seven windows Three balls had entered the posts and rails of his daughter's bed, she being too unwell to get up, twenty five balls were found in his wife's bed tick, and the furniture of the house was literally riddled

The Squire's personal casualties were as follows One ball severed a finger, another bored him in the temple, a third crossed his breast severing his shirt bosom, a fourth passed thru his hat, and a fifth unbuttoned his shirt sleeve

The cool and deliberate manner in which the Squire details the rencontre to his friends, and from his reputation for veracity, give the highest assurance of its entire truthfulness

A HAYFIELD ANECDOTE. An old gentleman who was always bragging how folk used to work in his younger days, one time challenged his two sons to pitch on a load of hay as fast as he could load it.

The challenge was accepted and the hay wagon driven round and the trial commenced For some time the old man held his own, very creditably calling out—

'More hay! more hay!'

Thicker and faster it came. The old man was nearly covered, still he kept crying—

'More hay! more hay!'

At length, struggling to keep on the top of the disordered and ill arranged heap, it began first to roll, then to slide, and at last off it went from the wagon, and the old man with it

'What are you down here for?' cried the boys

'I came down after hay,' answered the old man, stoutly

It was a literal fact. He had come down after the wagon load, which had to be pitched on rather more deliberately

Dr. Hayes recently said that it was his purpose to [illegible] next year to discover the North Pole, and expressed the belief that [illegible]

An eccentric old gentleman died suddenly of apoplexy in the Tuileries the other day. In his will he provided that after death his face was to be covered over with pitch, his mouth and nostrils hermetically sealed, and an incision made to his heart He left a little fortune of £600 a year. His monomania was the fear of coming to life again after interment

Great Battle at Somerset, Ky.—Rebel General Zollicoffer Killed.

CINCINNATI, 20th

There was a battle at Somerset, Ky, on Saturday, between Generals Schoeff's and Zollicoffer's forces lasting from early morning until dark. Zollicoffer was killed, and his forces entirely defeated. Loss heavy on both sides.

PHILADELPHIA, 20th

The steam frigate Hartford will sail from here as soon as she takes her powder on board.

ST JOHN, 20th.

The Canadian steamer Hiberman, from Liverpool 2d and Londonderry 3d, has arrived here with troops. News anticipated by the Arabia.

NEW YORK, 20th

Special despatches from Washington contain the following:

The Secretary of the Treasury has decided that tea on ship board, prior to the passage of the tariff act in August last, is entitled to entry free of duty. This is an important decision, involving a large quantity of tea now in port and on the passage.

WASHINGTON, 20th

The Committee of Ways and Means now stand two to one in favor of reporting a bill authorizing the issue of $100,000,000 in treasury demand notes, to be made a legal tender with the privilege of converting them at option into six per cent twenty year government bonds, or 7 30 notes.

NEW YORK, 20th

Counterfeit fives on the Bluehill Bank, Dorchester, Mass, are in circulation here.

Legislature of Maine.

AUGUSTA, Jan. 18

SENATE

Mr Smart called up the bill to authorize a loan of money to the United States for the public defence, to be reimbursed in bonds of the United States, which was laid on the table yesterday on his motion and ordered to be printed.

Mr Sweat said that this was a very important subject, and he for one did not wish to pass it through the Legislature without a deliberate consideration of the matter in all its phases. He would move to assign the second reading of the bill and the consideration of its passage for Wednesday next. Agreed to.

HOUSE

Petitions presented and referred—Of James Staples and 45 others, to be set off from Stockton to Prospect, of Isaac Wortman and 38 others, for the privilege of purchasing four lots of land, of Oliver Porter and others, of the town of Watford, asking for a change of the laws of the State in reference to chosing of Executive Council and legislative branches.

The Speaker appointed Messrs Barrows of Fryeburg, Bradbury of Eastport, Warren of Deer Isle, Hayden of Bath, Cary of Houlton, Sweetser of Saco, and Kingsbury of Portland, as Committee on the part of the House for the consideration of Scientific Survey of the State.

Mr Gould, from the Committee on the Judiciary, on bill to make valid the doings of the town of Garland, reported ought not to pass.

The New War Secretary

[From the Correspondence of the Evening Post]

WASHINGTON, January 14, 1862

The change in the Cabinet was the exciting topic last evening in all circles. At first leading Republicans were inclined to the opinion that Mr Cameron's position on the slavery question was in some way connected with his resignation. Under this view of things it was supposed that the Senate would hesitate about confirming Mr Stanton. It appears, however, that the latter is an anti-slavery Democrat, or rather a war Democrat, of the school of Dickinson and Cochrane. He believes most fully in the propriety of using the institution of slavery as a means to strike down the great rebellion. He fully approved in December of Mr Cameron's report, and is more heartily hated today by the pro slavery and white feather Democrats in Congress (there are but a few of them) than any member of the existing Cabinet. He is a live man, and will urge an active and aggressive policy upon his colleagues in the Cabinet.

MR HOLT'S POSITION

It is said that Mr Holt was asked to accept of a place in the Cabinet some time ago, when still another member desired to retire from it, and that he replied decisively, that as a Kentucky Union Democrat, he could do nothing more for the cause of the Union than as a member of a Republican Administration. His views on the slavery question would scarcely prevent him from accepting such a position, for his views are changing rapidly, and before April will be as strongly in favor of employing the slaves of rebels to help on the war as Cochrane or Dickinson are today.

☞ The St John papers calculate that 30,000 troops from England will be landed there during winter, and a large proportion forwarded by the valley of the St John to Canada.

Preparations are being made at the Navy Yard to test the strength of the new rifled guns finished there. One of them, a 32 pounder, will be fired with constantly increasing charges until it bursts.

WASHINGTON 20.

The Prussian Government, through its Minister, having endorsed the course of England in the Trent affair Secretary Seward, in response, while transmitting a copy of the printed documents bearing upon the subject, trusts they will satisfy the Government of Russia that if the general peace of the world is to be broken, the fault will not be in anything the United States have done to produce such a disaster, or in the omission to do everything which a just and generous power could do to prevent it.

The United States, at a very early day, addressed themselves to the unappreciated task of securing the co-operation of a just, equitable and humane principle in the code of maritime war. They have energetically persisted in this great enterprise through all changing events, equally when acting as a neutral, or when themselves engaged as a belligerent.

The Secretary asks to be allowed the liberty of suggesting to the consideration of the Prussian government, the expediency of improving the occasion which has justly excited so many apprehensions, to recommend the general policy relative to neutral rights, as suggested by our government, to the consideration of the European states at large.

"It is only in a spirit of the utmost respect and deference, that I take leave to remark that the periods when the United States will have occasion to act the part of a belligerent, will probably be few and brief, while judging from past experience, we cannot yet hope for so constant a preservation of peace among the nations of the Eastern continent."

The War Department informed the House today that no surveys for a railroad from Washington to New York have been ordered or directed, and the Department has no knowledge that such a survey is in progress.

At 12 o clock today General McClellan and staff, together with one hundred other army officers, proceeded to the War Department to pay their respects to Secretary Stanton. They were introduced by Assistant Adjutant General Townsend, and were in full uniform. When this ceremony was concluded, they repaired to the residence of Mr Cameron, where they formally took their leave of him.

The news from Kentucky causes intense delight, it is everywhere credited, no official confirmation, however, had been received up to 9 tonight.

The Government received today, as presents from the Emperor of Japan, two elephant trunks eight feet in length, a sword inlaid with gold and pearls, and other articles of minor value, including a handsome box containing a brief address or letter to the President.

Information has been received by parties direct from Manassas, that the rebel forces have evacuated that place, falling back to a position further south, not known, but the object is supposed to be to counteract an apprehended movement of our troops from the seaboard.

General Sumner, commanding a division of the army in Virginia, who was recently injured by the stumbling of his horse, has sufficiently recovered to assume his duties during the ensuing week.

Miss Poole, recently an inmate of the prison appropriated to women, left here this morning in charge of an officer on the way to Richmond—She was released on parole not to give aid or comfort to the enemy.

The papers for the recall of Cassius M Clay from his position as Minister to Russia, he having been relieved at his request, will probably go out by the next steamer. His nomination as a Major General is thought not to be impossible by his friends, if it has not already been sent to the Senate.

WASHINGTON, 21st, 1 A. M

The Government this morning received official intelligence of the victory in Kentucky—similar to that previously received by the press.

LOUISVILLE, 20th

The recent fight took place Sunday instead of Saturday morning.

General Thomas on Sunday afternoon followed up the rebels to their intrenchments, sixteen miles to attack them. This morning he found their intrenchments deserted, the rebels having left all their cannon, quartermaster's stores, tents, horses and wagons, which fell into our hands.

The rebels, dispersing, had crossed the Cumberland in a steamboat and nine barges at White Oak Creek, opposite their encampment at Mill Spring. Two hundred and seventy-five rebels were killed and wounded, including Zollicoffer and Ballie Peyton dead, who were found on the field.

The 10th Indiana lost 75 killed and wounded. Nothing farther of the Federal loss had yet reached here.

The river is rising three inches per hour, rapidly covering the levees and [illegible] on the river bank.

CINCINNATI, 20

The Lexington correspondent of the Commercial gives the following account of the Saturday battle—

Gen Zollicoffer, learning that the Federals had appeared in his rear, marched out of his entrenchments at 3 o'clock Saturday morning, and attacked Gen Schoepf in camp. The pickets were driven in at an early hour, and the attack was made before daybreak. The battle raged with great fury until 3 in the afternoon, when Zollicoffer having been killed, the whole force of rebels fled in confusion to their camp. The loss is not stated, but thought to be heavy.

The Bailie Peyton killed, is the son of the ex member of Congress from Tennessee of that name.

Our victory has been very decisive, and will result in the rout of the whole force defending the right flank of Bowling Green.

CINCINNATI 20th

Heavy rains have prevailed since Saturday night. The river here is 51 feet deep and rising at the rate of 3 inches per hour. Five feet of water is on first floor of buildings fronting the river. All the tributaries above are pouring out at flood heights.

CAIRO, 20th

A gentleman from New Orleans, who arrived here last night, reports that when he left there the citizens were daily expecting that Fort Pike, commanding the entrance to Lake Ponchartrain, would be attacked and captured by the federals from Ship Island. There were not over five thousand troops in the city, and not exceeding 2000 more could be raised in case of emergency. There are no batteries on the river above or below the city. The only defences against attack from the Gulf are two forts on the opposite side of the River, towards the mouth. He thinks the city could be easily captured by a small force.

Gen McClernand's brigade has returned from its expedition, and taken their quarters. The 20th Illinois regiment which has been encamped at the mouth of the Mayfield Creek since the expedition started, will be up tonight.

CHICAGO 20th

A special despatch from Cairo to the Journal says that Gen Grant and staff arrived in town yesterday morning. Gen Paine's brigade reached Fort Jefferson on Saturday night. Gen. McClernand's brigade will arrive tomorrow.—The object of the expedition was a reconnoisance in force of all that part of Kentucky upon which portions of the operations against Columbus will necessarily be performed, and a demonstration to aid Buell's right wing. Our forces have been entirely successful. The engineer corps under Gen Webster, having a full and accurate knowledge of the country.

It is understood that Gen Smith has taken the camp equipage and whatever was left in camp Beauregard. The rebels fled to Columbus.

Gen McClernand's brigade went to within 7 miles of Columbus, and encamped Thursday night in sight of the rebel batteries. They afterwards visited the towns of Melbourne, Lore Lacerville and Blandville, surveying all the roads as they went. Part of Gen Smith's command will return to Paducah today.

SAN FRANCISCO 10th

Sailed, Ship Anne Mary, Bombay.

We have had, if possible, the hardest rain storm of the season, melting the snow upon the mountains and almost all the summits causing an immense flow of water from the foot of the hills into the valley which the main river cannot carry off until after most of the agricultural parts of the State are more or less overflowed. The prospects are that Sacramento will be inundate deeper than ever, though the people are prepared, and the loss cannot be heavy. The farmers and miners have already sustained immense losses by freshets this winter. The gold products will be reduced millions from this cause. The Placer and River mines sustain a heavy loss, the various dams, canals, aqueducts, &c, being swept away or damaged.

Gov Downey's last message was delivered yesterday.

Gov Stanford was inaugurated today. The message represents the State still in a prosperous condition in all interests. The funds of the State Treasury, however, are unusually low.

The January interest on the State and Sacramento bonds is paid.

SAN FRANCISCO 11th

Sacramento is more completely flooded than ever before.

The Legislature proposes to adjourn its sessions to San Francisco.

The rain is continuing.

LOUISVILLE, 20

General Thomas telegraphs to headquarters that on Friday night Zollicoffer came up to his encampment, and attacked him at six o clock on Saturday morning, near Webb's Cross Roads, in the vicinity of Somerset. At half past three in the afternoon, Zollicoffer and Bailie Peyton had been killed, and the rebels were in full retreat to their entrenchments at Mill Springs with the Federals in full pursuit.

FORTRESS MONROE 19th

Southern papers say that Ex President Tyler is very ill.

The gunboat Sumter arrived yesterday afternoon.

The troops in the steamer Constitution will come on shore Monday morning for exercise—Havana dates of the 9th inst, had been received at New Orleans, but the only item is that business was extremely dull.

WASHINGTON, 20

The report that General Wool had sent notification to Norfolk to move the women and children out of that city has not been confirmed by official intelligence.

ST LOUIS 20th

John B Henderson, a Douglas democrat and Union man, has been appointed successor to Trusten Polk in the Senate.

A passage was made through the ice opposite this city yesterday, and the ferry boats are running. Two days more of mild weather will probably break the gorge and clear the harbor of ice.

PHILADELPHIA, 20th

John Johnson, a native of New Jersey, who was impressed at New Orleans, and escaped from Manassas ten days ago has arrived here on his way home. He estimates the rebel force at Manassas at 40,000, at Leesburg 80,000 and Occoquan 15,000. He had not heard of the Port Royal victory until he got within the Federal lines.

The fight at Drainsville had a depressing effect upon the rebel army. Their loss is conceded to be 300 killed, wounded and missing. He says the Louisiana regiment to which he was attached contains a large number of steamboat men. All are anxious to escape.

SAN FRANCISCO, 17th

The Legislature adjourned to the 21st to allow the water to subside from Sacramento, the whole city being under water from two to eleven feet deep. The people are driven into the second stories, and are unable to build fires to cook food. Cooked provisions in large quantities were sent from San Francisco by two steamers on Sunday. The water has materially subsided, but the weather is still unfavorable. The whole valley portions of the State have suffered severely from this unprecedented inundation. Millions worth of property has been destroyed.

CINCINNATI, 20th.

A combined attack was made today on Gen. Zollicoffer's entrenchments at Mill Springs, Wayne Co., Ky., resulting in a complete victory. The Stars and Stripes now float over the fortifications. We captured all their camp property, and a large number of [illegible]. Our loss is heavy. [illegible] dead, only [illegible] in the hands of [illegible]

Mr Clark introduced a bill authorizing payment for property occupied by the troops. Referred.

The bill providing the death punishment for spies was laid over till tomorrow.

Mr Wade offered a resolution appropriating ten thousand dollars to pay the expenses of the special committees on the war. Referred.

The consular appropriation bill was taken up, and passed.

The report of the Judiciary Committee on the resolution that there was no sufficient cause to expel Senator Bright, was taken up. A lengthy debate ensued without action.

Adjourned.

HOUSE

Mr Kellogg introduced a bill authorizing the Secretary of the Treasury to settle with the States for the supplies furnished their respective troops. Referred to the Committee on the Judiciary.

A resolution was adopted, that as Alabama has treasonably entered into rebellion, the Committee on Public Lands inquire into the expediency of confiscating the lands selected by that State, and that the same be applied to the use of the seminary now in operation in Nebraska.

Mr Vallandigham of Ohio gave notice that he would introduce a bill abolishing the Post Office Department.

Mr Hutchins introduced a bill establishing a Territorial Government in the revolted States—Referred to the Judiciary Committee.

Mr Allen of Ohio offered a resolution that in the judgment of this House, no part of the appropriation now or hereafter made, nor of taxes now or hereafter to be laid by Congress, shall be used in or applied to the prosecution of the war for the emancipation of the slaves. Tabled, 91 to 47.

Mr McPherson reported a bill discharging band volunteer regiments from service on the first of March. Referred to the military committee.

On motion of Morehead of Pennsylvania, the Secretary of War was directed to furnish the House the names of those who distinguished themselves in the recent brilliant engagement at Dranesville.

The Judiciary Committee were instructed to inquire if further legislation is necessary to secure to the relatives of volunteers who have been killed or who have died, the bounty provided by the act of July last.

Mr Dunn of Indiana, introduced a bill repealing the fishing bounties. Referred to the Committee on Commerce.

Mr Holman of Kentucky, from the Committee on Government Contracts, reported a resolution directing the sergeant at arms to bring before the bar of House Benjamin H Ukley, for alleged contempt of its authority in not appearing before them as a witness, at the time the Committee held its meeting in Cincinnati—Adopted.

Mr Washburne of Illinois, reported a bill appropriating $2000 to defray the expenses of the Government Contract Investigating Committee. Passed.

A resolution was adopted instructing the Committee on the Judiciary to inquire into the expediency of reporting a bill, making void all sales transfer and disposition of every kind of property by persons engaged in insurrection against the United States.

On motion of Mr Blair of Missouri, the Committee of Ways and Means were instructed to inquire into the expediency of levying a stamp tax on notes of banks and other corporations, circulating as money.

Various other resolutions were introduced and referred.

The House went into Committee of the Whole and considered the legislative appropriation bill.

Speeches were made by Fessenden, Steele, Wright and Bingham on emancipation, when the House adjourned.

A FRIEND IN NEED. TRY IT.

DR SWEET'S INFALLIBLE LINIMENT is prepared from the recipe of Dr Stephen Sweet, of Connecticut, the great bone setter and has been used in his practice for the last twenty years with the most astonishing success. As an external remedy it is without a rival, and will alleviate pain more speedily than any other preparation. For all Rheumatic and Nervous Disorders it is truly infallible, and as a curative for Sores, Wounds, Sprains, Bruises, &c. its soothing healing and powerful strengthening properties excite the just wonder and astonishment of all who have ever given it a trial. Over four hundred certificates of remarkable cures, performed by it within the last two years, attest the fact. See advertisement. eowd&w

TO HORSE OWNERS.

DR. SWEET'S INFALLIBLE LINIMENT FOR HORSES is unrivalled by any and in all cases of lameness arising from Sprains, Bruises or Wrenching, its effect is magical and certain. Harness or Saddle Galls, Scratches, Mange, &c. it will also cure speedily. Spavin and Ringbone may be prevented and cured in their incipient stages, but confirmed cases are beyond the possibility of a radical cure. No case of the kind, however, is so desperate or hopeless but it may be alleviated by this Liniment and its faithful application will always remove the Lameness, and enable the horse to travel with comparative ease. Every horse owner should have this remedy at hand for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases mentioned, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless. ALL PHYSICIANS AGREE

That large and frequent doses of nauseous alcoholic compounds taken into the stomach from time to time, must have a tendency to destroy the heathful tone of that vital organ of the human system " and it is well known to all the medical profession that the active principle of a gallon of liquid medicine can be placed in a table teaspoon. Why then the use of giving large and nauseous draughts? The erroneous idea, that the more nauseous the medicine the more potent its effects" is now discarded by all candid reasoners and it is indisputably proved beyond doubt that BRYAN'S PULMONIC WAFERS—a medicine of the most agreeable and palatable nature—are the most effectual remedy for Coughs, Colds and their consequences. They invariably give relief in ten minutes, and are so pleasant to the taste that any child will take them.

TO THE PUBLIC

Numerous imitations of the STEWART STOVE having appeared in the market during the past few years, and, of late, attempts having been made to counterfeit the name or trade mark, it is deemed highly important that the public should know how to distinguish the *genuine* article when making purchase of a stove.

GENTLEMEN:

Having noticed for years the fortunes of Tailors doing a credit business, and having myself proved that system to be utterly wrong for the Retail Tailoring business, I feel compelled to adopt the CASH SYSTEM. It is better for the customer who expects to *pay* for his garments, as the amount lost by bad debts, under the credit system, is divided between the patrons and the patronized, as the former receive it by paying as much as 20 per cent. less for their garments and the latter is saved from bankruptcy. Consequently I would invite all *Cash* paying customers to examine the Stock of Goods now on hand, and see if the prices are not 20 per cent. less than at any other Clothing House in the city. BOOTS AND SHOES
MADE ON

PLUMER'S PATENT ANATOMICAL LASTS!

(From J. V. C. Smith, M. D., formerly Mayor of Boston.)

PLUMER'S PATENT BOOTS.

The Undersigned has worn a pair of these Improved Boots, and feels grateful to the Inventor for the comfort derived from them. The nice adjustment of the sole to every part of the under surface of the foot, is an important circumstance which seems to have been entirely overlooked till Dr. Plumer planned his Last and Boot upon *truly scientific principles*.

Those who have once had an opportunity to test the real advantages of these Philosophically made Boots, will hardly be reconciled to wear any other.

J. V. C. SMITH.

BOSTON, July 26, 1861.

J. C. PLUMER, M. D.

Dear Sir: I am greatly delighted with your newly invented boots which I have worn during the past winter and only wonder that the world should have been so stupid as not to have made the discovery half a century ago. Any one with a grain of common sense and a moments reflection, cannot fail to see that your "PATENT BOOTS AND SHOES" are *perfectly adapted to the foot* that wonderful piece of *Nature's Mechanism*, giving to *every section of it a full and equal support*; and I am sure that those who once make trial of your new invention will never go back to the old fashioned boots or shoes, which are so prolific of Corns, Bunions, and a thousand other troubles. Your "*Patent Boots*" seems to be part and parcel of our *Physical structure*, supporting the foot in the *giving steadiness to the gait*, and promoting an even comfort to an eminent degree especially in walking over rough surfaces.

I wish I knew of some means by which I could make known to every man, woman and child in Christendom, the nature and importance of your invention. Very truly yours,

N. ERIS MATTSON, M. D.
55 Summer Street.

[illegible]LAND, July 12, 1860.

DR. PLUMER—

Dear Sir: Having learned the principle upon which your "Anatomical Last" is made, I was favorably impressed as to its efficiency in relieving a difficulty which all have experienced, who have to walk considerably, viz: severe pain in the feet after much walking. After having worn the boots made upon the "Anatomical Last," I found my anticipations more than realized. I can walk nearly all day without experiencing the above named difficulty in the least degree. I also escaped the torturing process of breaking in my boots, for they were as easy at first as after they had been worn.

Truly Yours, C. H. BURBANK, M. D.

DR. SWEET'S
Infallible Liniment!
—THE—
Great External Remedy

For Rheumatism, Gout, Neuralgia, Lumbago, Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders.

FOR all of which it is a speedy and certain remedy, and never fails. This Liniment is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically, RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used, it has never been known to fail.

For NEURALGIA, it will afford immediate relief in every case, however distressing.

It will relieve the worst cases of HEADACHE in three minutes and is warranted to do it.

TOOTHACHE also will it cure instantly.

For NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy.—Acting directly upon the nervous tissues, it strengthens and revivifies the system, and restores it to elasticity and vigor.

FOR PILES.—As an external remedy, we claim that it is the best known, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a *radical cure*.

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS, BURNS AND SCALDS, yield readily to the wonderful healing properties of DR. SWEET'S INFALLIBLE LINIMENT, when used according to directions. Also, CHILBLAINS, FROSTED FEET, and INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative powers of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION.

To avoid imposition, observe the signature and likeness of Dr. Stephen Sweet on every label, and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine. RICHARDSON & CO.,

PROF. WOOD'S
HAIR RESTORATIVE
AND
BLOOD RENOVATOR,

Is precisely what its name indicates for while pleasant to the taste, it is revivifying, exhilarating and strengthening to the vital powers—It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such, for example, as the following: consumption, bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypochondria, night sweats, languor, giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called female weaknesses and irregularities. Also, liver derangements or torpidity and liver complaints, diseases of the kidneys, scalding or incontinence of the urine, or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say it will not only cure the debility following chills and fever, but prevent all attacks arising from Miasmatic influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the liver to action, promoting in fact all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful, at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits—students, ministers, literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again the cordial is a perfect mother's relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it, this cordial is all we claim for it. Mothers, try it!* And to you we appeal to detect the illness or decline, not only of your daughters, before it be too late, but also your sons and husbands, for while the former, from false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that, if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. MR. W. A. BELL.

Dear Sir:—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, and am satisfied, from an experience in all other preparations for the like purpose, that *it is the only* [illegible] *ever before the public* worth purchasing.

Yours truly, JOHN G. DALY.

PADUCAH, KY., July 27, 1860.

MESSRS. W. E. HAGAN & CO., Troy, N. Y.

Gents:—Above please find statement of Mr. John G. Daly, a merchant of our city, in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public claiming to be Hair Restoratives, and must be considered conclusive as to the merits of the *Inimitable*. Am out of the large size. Forward by Railroad double the quantity we had before.

Very truly yours, W. A. BELL.

IT WILL RESTORE THE NATURAL COLOR OF THE HAIR,

where age or sickness has turned it grey, and it will render it soft and glossy.

"ANYBODY"

who may try it will find that it does not color the skin, but by acting upon the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and is an article for the toilet has no equal.

MESSRS W. E. HAGAN & CO.,

I hereby certify that my Hair having become grey and my head partially bald, I bought from Henry Reynolds, Druggist, the four oz. bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By the use of it my Hair was restored to its original color and thickness. It removed all dandruff, arrested its falling and gave it a rich, glossy appearance. Its effects were entirely different from any Hair Preparation I ever used before. I know of several ladies and gentlemen, my friends, who also have used the Inimitable and they pronounce it the best and cheapest Hair Preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WILLIAM BOSBYSHALL.

Messrs. W. E. HAGAN & CO., Troy, N. Y.—Gents: The happy results attending the use of *Heimstreet's Inimitable* in every sense of the word, *Hair Restorative* seems to demand that I should give my testimony, that other ladies might profit by it. I have never used a hair preparation that I liked so well. It has completely restored every hair that was grey to the color it was in girlhood, and has brought it out thick and healthy. I was induced to use the article by Mr. Reynolds, your Agent here. If this letter will be of service, you may publish it.

THE
ONLY PREPARATION
THAT HAS
Stood the Test of Years,

And grows more and more popular every day!

AND testimonials, new, and almost without number, might be given from ladies and gentlemen, in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

BATTLE CREEK, Mich., Dec 21, 1858.

Prof. Wood.—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed thy directions and the bald spot is now covered with hair thick and black, though short. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—the reward is to those that are kind to the widow and the fatherless.

Thy friend, SUSANNAH KIRBY.

LIGONIER, Noble Co., Ind ana, Feb. 5, 1859.

Prof. O. J. Wood:—Dear Sir: In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair from a cause unknown to me, commenced falling off very rapidly, so that in the short space of 6 months the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars' worth of your Restorative, and as a result have a rich coat of very soft black hair, which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you are using it with like effect.

Very respectfully yours, A. M. LATTA,
Attorney and Counsellor at Law.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small. The small holds ½ a pint, and retails for one dollar per bottle, the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle, the large holds a quart, 40 per cent. more in proportion, and retails for three dollars per bottle.

ILLUSTRATED
SCIENTIFIC AMERICAN.
—THE—
Best Mechanical Paper in the World.

SEVENTEENTH YEAR.

VOLUME VI.—NEW SERIES.

A NEW VOLUME of this widely circulated paper commences in [illegible]. It is published WEEKLY, and every number contains sixteen pages of useful information, [illegible] ten original engravings of new [illegible] discoveries, all of which are prepared [illegible] columns.

To the Mechanic and Manufacturer.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but four cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication. It is an established rule of the publishers to insert none but original engravings, and those of the first class in the art, drawn and engraved by experienced persons under their own supervision.

To the Inventor.

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

Chemists, Architects, Millwrights and Farmers.

The SCIENTIFIC AMERICAN will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found published in the SCIENTIFIC AMERICAN, which information they cannot possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the SCIENTIFIC AMERICAN; most of the improvements in agricultural implements being illustrated in its columns.
